## 10. Table and Figure Naming Guidelines

Tables and figures are numbered by chapter, referenced in the text before they appear, and listed in the List of Tables / List of Figures at the front of the report.

### 10.1 Figures

- Numbering: "Figure <chapter>.<sequence>", e.g., Figure 3.1, Figure 3.2 (1st and 2nd figures in Chapter 3), Figure 4.1 (1st figure in Chapter 4).
- Caption placement: below the figure, centered.
- Caption format: "Figure 3.1 System Architecture Diagram" - bold label + regular or bold description (12-13 pt, Times New Roman; one size smaller than body text).
- Every figure must be referred to in the body text before it appears, e.g., "as shown in Figure 3.1".
- Figures should be centered on the page with consistent spacing above and below.

### 10.2 Tables

- Numbering: "Table <chapter>.<sequence>", e.g., Table 3.1, Table 4.1.
- Caption placement: above the table (opposite of figures), left-aligned or centered as per department convention.
- Caption format: "Table 4.1 Comparison of Existing Systems" - bold label + description, 12-13 pt, Times New Roman.
- Every table must be referred to in the body text before it appears.
- Table borders should be consistent (thin, single-line) throughout the report; avoid mixing border styles between tables.
